Minneapolis, Minn. 55427

UK **Subsidiary:** Husqvarna Limited,  
High Lane, Stansted, Essex

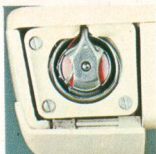

# Viking 6000

the sewing machine  
with **T**rimotion

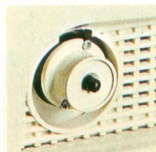

## This is Trimotion

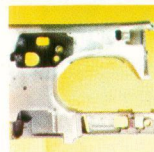

Trimotion means that the three movements of the needle and feeding action (up and down, forward and backward, side to side) have been magically synchronized to create new and exceptionally strong and stretchable seams for you. This permits you to sew the modern knitted and stretch-type fabrics and suddenly sewing is fast . . . it's easy . . . it's fun!

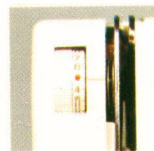

Only Viking has a full rotary hook which never jams and never needs oiling.

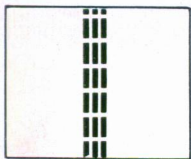

Viking's exclusive low gear lets you sew as slowly as you wish, even one-stitch-at-a-time, with full motor power.

Unique one-piece construction (doesn't show externally) gives precision operation and unsurpassed stability.

Built-in thread tension gives better visibility and easier threading.

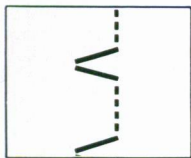

**Elastic straight stitch**  
holds where an ordinary straight stitch breaks. Invaluable for all stretch materials, sportswear and children's clothes.

**Trimotion**

**Knit stitch.**  
The special Viking overlock stitch joins and overcasts in one operation. Stretches with the material. Permits you to sew the modern knit fabrics.

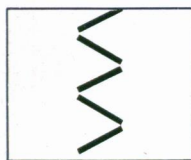

**Trimotion**

**Blind hem stitch.**  
The Viking blind hem stitch is quick and easy to sew. Gives neat, strong and »invisible« hems on skirts, dresses, curtains, etc.

**Elastic blind stitch.**  
Ideal for hemming tricot, jersey and other knit and stretch materials. The straight stitches are replaced by small zigzag stitches, which make the seam stretchable.

**Zigzag.**  
Overcasts ordinary fabrics, sews on buttons, hems towels, sheets and table napkins, does appliqué works, monograms, attaches lace, etc.

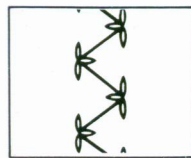

**Three-step zigzag.**  
Ideal for sewing terry cloth and for overcasting stretch and knit materials or loosely woven fabrics. For mending and darning with the quick and easy Viking **Quick-mend** method.

**Buttonholes in seconds.**  
Strong, neat buttonholes of any length, made in one sequence, without turning the cloth.

**Trimotion**

**Decorative stitches.**  
Viking 6000 gives you a wide range of decorative stitches full of variety—not as an imitation of hand embroidery but as new means of expression.

**Trimotion**

# Viking 5000 is delightfully practical

**Superbly simple.** Every stitch has its colour. Just dial the colour of the desired stitch!

**Free arm** with ideal measurements. One-piece construction.

**Gear-shift transmission** for sewing one-stitch-at-a-time with undiminished motor power.

**Exclusive rotary hook.** Newer jams with sewing thread, never needs oiling.

**Complete snap-on foot system.**

**Instant threading.** Practical contrasting colour behind the needle eye.

**Built-in thread tensioning.**

**Transparent, capacious bobbins.**

**Convenient foot control** with heel rest.

**Practical accessories:** Spacious extension table. Built-in adjustable sewing light. Compartmented accessory box. Attractive, hard-wearing carrying case.
